

NEW PRODUCT PREVIEW

Transform your garden with these cleverly designed, natural stone birdbath/feeders.

You'll find it hard to choose between the lovely honed slate and the colourful rainbow options - their beautiful graining characteristics make them equally stunning.

We've designed them to be versatile too so you can create a range of different looks. For example, the bowl can be displayed in several ways. Every stand can be positioned either way up giving you two options and looks when placing your flight bowl on top. One end is flat while the other has a purpose made incline to allow the bowl to fit snugly within it. Their powder-coated steel bases make them durable yet light enough to move around easily, giving you lots of variety.

Our images show how you can create a variety of looks by placing these versatile new products in different settings.

Foras Flight Bowls are beautiful enough to display inside your home as well as in your garden. They can be bought without the stand and work very well displayed as elegant bowls in their own right.

The Kite - RRP £269.00

At home anywhere; in any garden

The Brant - RRP £299.00

The smallest of the range but equally beautiful and just as functional. Its steel tubing works so well with natural light.

The Finch - RRP £399.00

Many fine strands of tightly bound, treated steel make The Finch a robust and stunning contemporary structure.

The Jay - RRP £399.00

Train topiary from the centre or fill with plants: either will look great.

The Swan - RRP £349.00

Formed like a well-structured topiary, this shape certainly makes a statement. Using the base in a variety of ways creates completely different looks.

The Stork - RRP £299.00

We selected this colour for The Stork's base because it works so well with its environment and gives it versatility. It stands out as a feature or disappears when integrated into foliage.
